

Read It... Think It... Write It...

2009- 2010 Academic Work Policy

Time-Out:

- ◆ If a student is removed from the educational setting due to inappropriateness. The student should be provided the opportunity to take his/her academic assignment with them. If the student chooses not to take advantage of the opportunity to take his/her academic assignment, I would suggest handing the assignment to the adult that has arrived to escort the student to the PLUS room.

In-school Suspension:

- ◆ The student should be provided enough prior notification to request instructional material to correspond with the instructional blocks assigned to the PLUS room. The student should be provided equitable time to gather and/or submit academic material to the appropriate instructor when assigned to PLUS.

Suspension:

- ◆ Students are eligible to receive academic material for the time he/she misses due to out-of-school suspension. The appropriate time frame for academic work completion should mirror the time suspended out of school.
